

THERE IS NO PLAN B

The 'A-Team' supports the development of restorative recreational teams. The business needs operations, finance, marketing and HR. Instead of branding with these boring names, we label these roles based on the very bad 1980's sitcom the A-Team as detailed below
Is this something that you might consider supporting?

HANNIBAL is like the *Dutch Uncle* or the *HR Manager*.

They will be practical, direct, stubborn, well organised and think they are always right. The Hannibal role will be the driving force for the group, taking overall responsible.

FACE is like the *King's Confident* or the *Marketing Manager*.

They are able to activate the community's decision making units; spanning both teenagers and adults within and across community groups.

MURDOCH is like a *Stuntman* or the *Operational Manager*.

They are like the unknown stuntman who makes Clint Eastwood look so fine.

The one who remains in the background, ensuring that everything works, like clock work.

BA is like a *Generator* or the *Finance Manager*.

They *pities the fool*; - who takes more than they give.

They understand that when everyone gives a little, everyone is better off.

It's '*no cost-low cost*' solution but '*if you wanna dance, you gotta pay the band*'.

Our A-team will be rewarded by accessing our network .

For example, Take Colin Fraser with the queen's baton (right) as an example. He has volunteered for us for 18 years. ASAP has mentored Colin to secure a scholarship while at Strathclyde and a Winston Churchill Travelling Fellowship to South Africa and Cuba. This effort has culminated in Colin gaining a Fulbright Scholarship for a Harvard MBA starting Aug 2014. ASAP wrote references for Colin every step in his journey, enabling him to gain the UK Graduate Engineer of the Year 2014.

There are four different developmental processes from the conventional way, to sustainability, with the third being restorative and the last regenerative. The **conventional** way takes far more than it give back. **Sustainability** merely allows us to continue the way we are. The **restorative** brings things back to the way they were before we created our mess. But **REGNERATATIVE** is a process of healing to leave the planet in the best possible stage for future generations. The A-Team will regenerative well (social, mental and physical) across our neighbourhoods.
